GURE

July 22, 2009

Dear Senator,

We, the undersigned organizations, representing millions of Americans, strongly encourage you to support health care legislation that expands health care choices and reduces health care costs through an open health care system. Many of the reforms Congress is currently considering will increase costs, reduce choices, raise taxes, and control our families' health care.

We stand united against:

- Giving bureaucrats any decision-making authority over American families' health care.
- Increasing the deficit.
- A government health insurance plan.
- A government health insurance exchange.
- A government-designed co-op.
- An individual mandate and an employer mandate.
- Rationing health care.

We are for Americans who want to expand choices and improve affordable options in our health care system.

Sincerely,

Tim Phillips
